III. Review of Mission Statement of New Board -

Troy Soccer Club is dedicated to helping players reach their maximum potential both on and off the field. We want our players to do the best they can in life as well as in soccer. Our goal also is to provide an environment where learning is fun, and where learning is expected of everyone. Troy Soccer Club is committed to providing the instruction and support to give our players the best opportunity to reach their potential, regardless of age or level. All of our players deserve the opportunity to improve their overall soccer performance, in a manner that is relevant to their potential. This includes increasing their technical skill sets and their understanding of tactical relationships to the game of soccer, and improving their fitness level and their willingness to compete.
